PERSONAL PROFILE

An Electronic Engineer turned Software Developer. With experience in Web Development, Data Science, Project Management, and Industrial Automation. I consider myself to be a disciplined and resilient person, always keen to learn and open to get involved in different areas. Highly interested in topics such as Blockchain, IoT, and AI and how to use them in real case scenarios.

SKILLS

Proficient with Vue.js, React.js, TypeScript, JavaScript, Node.js

Experienced with Express.js, REST, GraphQL, (S)CSS, HTML, Python, SCSS, Redux, Jest

Worked with Kubernetes, Docker, MongoDB, MySQL, Redis, SQLite, InfluxDB, React Native, GIT, Enzime, Flask, Angular 2+, C++

WORK EXPERIENCE

Aug 2021 – Present
Freelance Software Engineer
Device Insight - Manizales, Colombia
- Develop an IoT Application for Robotics Industry.
- Typescript, Node.js, GraphQL, Vue.js, React.js, Docker, Express.js, Jest, CI/CD, Azure DevOps.

Sep 2020 – Aug 2021
Software Engineer
Device Insight - Munich, Germany
- Develop an IoT Application for Robotics Industry.
- Typescript, Node.js, GraphQL, Vue.js, React.js, Docker, Express.js, Jest, CI/CD, Azure DevOps.

Feb 2020 – Aug 2020
Junior Backend JavaScript Developer
European Computer Telecoms - Munich, Germany
- Develop Telecom added-value services (back-end).
- Implement legacy code (Java & JavaScript) in Typescript.

Feb 2020 – Present
Freelance Fullstack Developer
Freelance
- Develop Industry-related applications.
- TypeScript, Node.js, React.js, Material UI, MSSQL.

May 2019 – Dec 2019
Master Thesis Student
Schneider Electric - Ratingen, Germany
- Develop a machine failure detection system in Python.
- Develop a web application to visualize data and run analytics in real-time.
- JavaScript, TypeScript, Python, Node.js, Flask, Angular 2+, MongoDB, InfluxDB, Scikit-learn, Pandas, NumPy, Docker.

Sep 2018 – Mar 2019
Intern
Schneider Electric - Ratingen, Germany
- Test thermal monitoring systems.
- Detect anomalies using machine learning in Python.
- Develop a web application to interact with the data and predictions.
- JavaScript, Python, Node.js, HTML, CSS, React.js, Bootstrap jQuery, Scikit-learn, Pandas, Docker, Azure.

May 2016 – Sep 2017
Field Service Engineer
Jorge E. Jaramillo S.A.S. - Manizales, Colombia
- Design Wiring diagrams.
- Write technical manuals.
- Program weight indicators and control devices.
- Lua, Visual Basic .NET, SQLite.

Dec 2015 – May 2016
Maintenance Coordinator
C.I. Súper de Alimentos - Manizales, Colombia
- Technical support for all packaging lines.
- Plan electrical and mechanical maintenance.
- Continuous relationship with contractors.

EDUCATION

Oct 2017 – Mar 2020
MSc. Electrical Engineering and IT
Hochschule Darmstadt
Darmstadt, Germany

Jan 2016 – Nov 2016
Postgraduate Diploma, Project Management
Universidad Nacional de Colombia
Manizales, Colombia

Jul 2010 – Aug 2015
Engineer's Degree, Electronic Engineering
Universidad Nacional de Colombia
Manizales, Colombia

CERTIFICATES - COURSES

Jun 2019 **Server-side Development. Node.js, Express and MongoDB**
HKUST - Coursera

May 2019 **Applied Plotting, Charting & Data Representation in Python**
University of Michigan - Coursera

Feb 2019 **Applied Machine Learning in Python**
University of Michigan - Coursera

Jan 2019 **Introduction for Data Science in Python**
University of Michigan - Coursera

Aug 2018 **Front-End JavaScript Frameworks: Angular**
HKUST - Coursera

Aug 2018 **Front-End Web UI Frameworks and Tools: Bootstrap**
HKUST - Coursera

Jul 2018 **Python for Data Science**
IBM - Coursera

Apr 2017 **Data-driven Decision Making**
PwC - Coursera
